

Style Guide for Creating Works Cited Lists

Works Cited General Guidelines:

- References are cited on separate pages at the end of a manuscript, under the title, Works Cited (with no quotation marks, underlining or italicizing), centered at the top of the first page. The Works Cited list should be alphabetized by authors' last names. References are **double-spaced** within and between entries.
- Generally, underline titles of books and journals, **but note:** some instructors prefer italics instead of underlining.

This guide shows the most frequently used citation types. For other citation or style questions in MLA format, copies of the complete manuals are located at these libraries: Suzzallo, Odegaard Undergraduate, Engineering, Drama, Bothell/CCC, Tacoma and Urban Horticulture. Citing a Web Source with No Page Numbers

If you have the option of viewing a PDF version of an article or book chapter, do it—these have the same pagination as the print version and you can cite it exactly like an article in print format.

Web documents generally do not have fixed page numbers or any kind of section numbering. If your source lacks numbering, you cannot cite page numbers or use numbers associated with your printout.

If your source includes fixed page numbers or section numbering (such as numbering of paragraphs), cite the relevant numbers. For example--paragraph numbers: Moulthrop, pars. 19-20. (Pars. is the abbreviation for paragraphs. Common abbreviations are listed in the MLA Handbook.)
